Ford Motor Company is issuing an emission recall for a small number (794 total vehicles) of 2014-2015 model year vehicles listed above. Affected vehicles are identified in OASIS. In addition, for a list of vehicles assigned to your dealership, visit https://web.fsavinlists.dealerconnection.com. This information was available on July 31, 2014.

REASON FOR THIS EMISSION RECALL

Some of the affected vehicles were built with uncertified catalytic converter(s) during vehicle assembly and may not comply with emission regulations.

SERVICE ACTION

Before demonstrating or delivering any of the vehicles involved in this recall, dealers are to inspect the part number stamp on both the left and right catalytic converters and replace as necessary. This service must be performed on all affected vehicles at no charge to the vehicle owner.

PLEASE NOTE:

The delivery of uncorrected new vehicles to customers could lead to penalties under applicable state and Federal regulations. Correct all vehicles in your new vehicle inventory prior to delivery.
